OVERVIEW

### Put your career in the spotlight

Add a new dimension to your architectural career. Once you have produced your 3D model using Revit Architecture software the next step is to successfully translate the model into a clear and concise set of documents. Gain skills in 2D and 3D view creation and visibility control, custom fill patterns, add-ins to enhance the Revit interface, schedules and legends as well as Project, Family and Shared parameters.

## HOW TO ENROL

### Recognition of prior learning

Fast-track your way to a formal qualification by earning credit for the things you already know. Getting recognition for the skills you've gained from the workplace or previous learning means less study time for you, and getting the paper to prove you're qualified a whole lot sooner.
