Discover TAFE for yourself

TAFE creates and celebrates the doers in our country. The people who make the world turn. And now you can discover it for yourself.

Celebrate what TAFE Queensland Brisbane can do to help you achieve your study and career goals at one of our Discover TAFE events to be held across all Brisbane campuses next week.

TAFE Queensland Brisbane General Manager, Aaron Devine said everyone is welcome.

“Whether you’re in high school, studying, or working and want a career change, you will discover what is great about TAFE at these interactive sessions,” he said.

“Eighty-nine per cent of TAFE students are either employed or enrolled in further studies after six months of completing their training.

“That’s why we’re among the best in the business and if you choose to study with us, you should be assured that your future is in safe hands.

“TAFE isn’t about second choices. It isn’t a place where you get a second rate education.”

All events are free of charge and will be invaluable for anyone seeking to explore their tertiary studies, training and career options.

“Not only do we recognise your skills to fast-track your studies, we’re also well connected with top universities,” Mr Devine said.

“That means you can get credit for your TAFE qualification to fast-track your degree at some of Australia’s best universities.”

Don’t miss out on this great opportunity to map out your future with TAFE Queensland Brisbane.
