Plant sale extravaganza

TAFE Queensland's talented green-thumbed students are holding their winter plant sale on Saturday 14 June 2014 from 9am to 12noon.

Twice a year, TAFE Queensland Brisbane students put on their ever-growing plant sale event and invite the public to snap up a wide-range of plants, including herbs, natives, exotics, and colourful flowering shrubs at bargain prices.

Whether you are a garden expert or just want a pot plant for your balcony, there is something to beautify every home.

Andrew Milner, Horticulture teacher said the "students nurture and grow a selection of plants and flowers as part of their semester work-program.

"They propagate, maintain, pot-up, fertilize, water and learn all the 'dirt' on growing healthy flowers and plants for indoors, outdoors, potted and sprawling gardens," he said.

"Students really enjoy watching their work come to life and it gives them practical and relevant industry skills across a broad range of horticultural areas."

If you're interested in the horticulture industry and want to find out more about the courses available, come along and chat to the teachers or students at the plant sale. The TAFE Queensland Grovely location specialises in horticulture, floristry and animal science.

The plant sale is held at TAFE Queensland Grovely nursery, Dawson Parade, Keperra. Parking is available via Woking Street entrance. We accept payment by cash or EFTPOS.
